## PROFESSIONAL SUMMARY

Computer Science student (B.Tech) with a strong foundation in CS fundamentals, including data structures, algorithms, and operating systems. Possesses strong analytical abilities, demonstrated by solving 200+ algorithmic problems on platforms like LeetCode. Recognized for a "passion for research and innovation" as a Top 105 Finalist in the Google Developer Groups Solution Challenge. Eager to apply software development and analytical skills to solve complex problems in a research-oriented role

## SKILLS

- Tools/Platforms:** GCP (Cloud Storage, IAM), AWS (S3, IAM).
- Languages:** C, C++, Java, JavaScript.
- Frontend:** JavaScript, React, HTML, CSS.
- Backend:** Node.js, Express.js
- Databases:** MongoDB, MySQL.
- Concepts:** RESTful APIs, JSON, Project Management, SDLC, Adaptability

## PROJECTS

- Secure Aadhaar Voting System** July 2025  
Architected and deployed a high-performance, scalable cloud-native voting platform on Google Cloud Platform (GCP). Created secure, server-side RESTful services with Node.js to handle QR code generation and voter verification workflows, communicating with a JSON-based API. Secured the database layer using Cloud SQL for MySQL with IAM database authentication, eliminating password-based security risks.  
**Technologies Used :** GCP (Cloud Storage, IAM, Cloud SQL), Node.js, JavaScript, MySQL, and REST APIs.
- EcoRide Carpooling System:** April 2025  
Developed a full-stack, eco-friendly ride-sharing platform using components of the MEAN stack (MongoDB, Express.js, Node.js) Used bcrypt to secure user data and passwords  
Engineered the full-stack data flow, connecting the front-end to the Node.js/Express.js backend and MongoDB database. Implemented user authentication, ride scheduling, and fare splitting to create a seamless user experience (UX)  
**Technologies Used:** MongoDB, Node.js, Express, HTML, CSS, and JavaScript.

## CERTIFICATIONS

- Google Cloud Data Analytics Certificate (Google Cloud) October 2025
- AWS cloud Practitioner Essentials (AWS) October 2025
- Introduction to Containers w/Docker, Kubernetes and OpenShift (Coursera) October 2025
- Getting Started with Git and GitHub (Coursera) September 2025
- Hands on Introduction to Linux Commands and Shell Scripting (Coursera) September 2025

## ACHIEVEMENTS

- Selected as a top 105 finalist (top 3%) from 3,700+ competing teams in the Google Developer Groups (GDG) Solution Challenge for innovation and impact
- Reached Gold Tier status for extensive completion of hands-on labs and quests in Google Cloud Skills Boost.

## EDUCATION

- Lovely Professional University,** Punjab, India  
Bachelor of Technology—Computer Science and Engineering; Since August 2022
- Narayana Junior College,** Visakhapatnam  
Intermediate; **Percentage: 91.5%** April 2020-May 2022
- Narayana High School,** Vishakhapatnam  
Matriculation: **Percentage: 98.6%** June 2017-April 2020
