Education

Lovely Professional University (LPU), Punjab, India

Expected 2026

B.Tech in Computer Science and Engineering

Focus Areas: Cloud Computing, Distributed Systems, DevOps, Applied Machine Learning

Relevant Coursework: Cloud Computing, Distributed Systems, Machine Learning, Site Reliability Engineering

Research Interests

AIOps, Cloud Reliability Engineering, Predictive Machine Learning for Distributed Systems, Explainable AI, Infrastructure-as-Code

Research Work

- **Combating Synthetic Media Manipulation Using Deep Learning–Based Deepfake Detection Systems**

Accepted for presentation at 8BIC 2026. Co-author.

Developed a deep learning–based deepfake detection framework for synthetic media analysis and authenticity verification.

- **AIRIMF: AI-Driven Risk Identification and Mitigation Framework**

Independent research manuscript. Sole author.

Developed a leakage-free Random Forest pipeline with SMOTE for imbalanced software-risk prediction using real-world ticket metadata and repository signals.

[Project Repository](#)

- **NETOPS-XAI: Explainable Multi-Class Intrusion Detection**

Independent research manuscript. Sole author.

Built a SHAP-based intrusion detection framework for CIC-IDS2017 and analyzed cross-dataset domain-shift failures affecting model generalization.

[Project Repository](#)

Professional Certifications

- Oracle Cloud Infrastructure (OCI) 2025 Certified Multicloud Architect Professional
- Oracle Cloud Infrastructure (OCI) 2025 Certified DevOps Professional
- Oracle Cloud Infrastructure (OCI) 2025 Certified AI Foundations Associate
- Oracle Cloud Infrastructure (OCI) 2025 Certified Data Platform Foundations

Technical Skills

- **Cloud & DevOps:** OCI, AWS, GCP, Terraform, Docker, Kubernetes, CI/CD, Infrastructure-as-Code, Firebase
- **Machine Learning & AI:** Python, scikit-learn, pandas, NumPy, Random Forest, SMOTE, SHAP, Feature Engineering
- **Programming Languages:** Python, Java, Bash, TypeScript, JavaScript
- **Monitoring & Tools:** Prometheus, Grafana, Git, Linux

Test Scores & Language Proficiency

- **GRE General Test:** 324 (Quantitative: 168, Verbal: 156)
- **English:** Full professional proficiency; degree taught entirely in English (MOI certificate available)
- **Japanese:** Elementary proficiency; currently self-studying toward JLPT N4
- **Native Languages:** Telugu, Hindi

Technical Projects

- **Carpooling and RideShare Platform**

Built a full-stack ride-sharing web application using Node.js, Express.js, MongoDB, and session-based authentication with ride creation, booking, and review modules.

- **StockAI**

Developed and deployed a stock-market analysis web application using TypeScript and Firebase hosting with interactive frontend dashboards and market visualization.

- **Secure Aadhaar Voting System**

Designed a secure cloud-based voting platform using Google Cloud services, SQL databases, and frontend web technologies for authentication and vote management workflows.

- **Compass AI Travel Web Application**

Built and deployed an AI-assisted travel planning web application using Firebase for scalable hosting and backend integration.

Training & Coursework

- Google Cloud ACE Training — Outstanding Grade

Focused on Terraform, Infrastructure-as-Code, and Cloud Operations.
